ARDMORE, WEDNESDAY, OCT. 2.

Talk up the sprinkling of our streets with oil.

"A Mother" has an article in this issue which the school board should read and heed.

The "Twenty minutes for dinner" along railroads may be all right, but it will not work in the public schools of Ardmore.

The will of the late President McKinley was admitted to probate at Canton yesterday. The sum scheduled shows the estate to be valued at \$210,000.

On a farm near Metropolis, Ill., is a patch of ripe full developed strawberries. The owner thinks he has succeeded in developing a September variety of the berry.

The backers of the Shamrock are more hopeful now. The race yesterday was called off as the boats could not make the distance in the time limit. The Shamrock was decidedly in the lead when the race was called off.

Some of our merchants are in favor of giving oil a trial on Main street, why not all agree to the test, we will know the result will be beneficial and satisfactory to all. It is worth trying to say the least. You will lose more on damage to your goods in a week's time than you will have to expend for a test good for a month.

The children are opposed to it; their mothers are opposed to it; the teachers should be and we think they are opposed to it; the majority, or maybe all the school board are opposed to it; therefore, it's up to the superintendent to cancel this "twenty minutes for dinner" matter and run the schools as in former years.

Our people are arming in their wrath over the "twenty minutes for dinner" experiment in the public schools, and if Superintendent Hendrix does not enlighten our people on the benefits to be derived from the plan we very much fear he will be forced to call the experiment off and pronounce it a failure.

It is now proper, says the Drivers Telegram, for a young man to call his sweetheart a potato instead of a peach. Although the potato has not the creamy skin of a peach, it is dearer by far and is improved by mashing. If you want to make a killing ask her if she is your sweet potato, and as she deposits her silky treasures on your manly bosom, you will hear the softest, sweetest voice say, "I yam."

Our merchants have no one to blame but themselves. The water supply for street sprinkling purposes has been exhausted, just as it has been every year about this same time. The Ardmoreite has repeatedly advanced the idea that our merchants apply crude oil to the streets, as a solvent of the vexed dust question it is the whole thing. One application thoroughly done will last for weeks. Hence it is really much cheaper as well as far superior to water.

S. E. Jenkins, the big cash grocer, is headquarters for cash buyers.

## OPEN UP BIGGER THAN EVER.

The Caddo Asphalt Mines—New Company, New Lease.  
Judge Bates of this city has just returned from the Caddo Asphalt Mines and tells the Ardmoreite that great improvements are going on out there. The company has been reformed, new members taken in, new machinery is being put in, and a new lease has been granted the company from the secretary of the interior, giving them a great scope of land on which to operate.

The new firm has been prospecting for better fields to work, and when everything is in readiness a large output of this product will be taken out daily.  
While these mines are called "Caddo Asphalt Mines," they are in reality "Ardmore's Asphalt Mines." The rich ore only lies a few miles west of us and the mines are called "Caddo" from the fact that the proprietors saw fit to call them so.

C. D. Hyde is the manager of the company and all the product of these mines are shipped through Ardmore.

The quality of this ore is the finest in the Territory and has a wide reputation in the western markets.

Judge Bates informed us that the company contemplated buying for oil at an early date, as every indication existed there of a bountiful supply of it at no great depth in the earth.

It is a well known fact that whisky is brought into the Indian Territory daily. It is also a fact that men who want whisky drink it. We do not hesitate in saying that it is drunk every day by men in Ardmore, and will even sell by ocals whose duty it is to stop its introduction. In view of all this it is not wrong to arraign in court and send to the penitentiary as has been the case, men who have been unfortunate enough to be found with a bottle of whisky which they desired to use for medicinal purposes, or for an occasional drink at home. We reverence the laws of our land, but there should be no discrimination. Every one should be allowed the same freedom. The bootlegger and whisky peddler is an anarchist and the penitentiary is too good a place for him.

Phoenix says: Good results of the waterworks election have already started. It is stated positively that Dr. Fite is to build another three-story building north of the one he built for the Dawes commission. With the assurance of water for fire protection, men who have heretofore contemplated building are loosening from their money and within the next few months the city will probably witness more building than ever before in Muskogee. Water for fire protection also means lower insurance on buildings and this is a great item to builders, as the reduction of but a cent amounts to hundreds of dollars saved in insurance. The average two-story substantial building. More results of the election are sure to follow thick and fast, and when the water pipes are laid in the streets of Muskogee it will be a city worthy should be justly proud of.

Wanted Czolgosz Released.  
Palmyra, Mo., Oct. 1.—Several days ago a well-dressed, middle-aged woman of good appearance arrived at Taylor, a little place north of this city. She stated that she was circulating a petition for the release of Czolgosz, the assassin, claiming that the wrong man had been arrested. To the effect, she stated that she was collecting information concerning the code of living of farmers for a certain society to which she belonged. She declined to reveal the name of the society or its object.

She stated that she was a widow and that her name was Smith. She gave evidence in her conversation of refinement and education.

Shortly after the arrival of the officers the woman insisted on leaving the house where she had been staying and started off down the railroad track. Nothing has been heard of her since.

## Well Fixed for Stamps.

Mangum, Okla., Oct. 1.—Two strangers, suspected of robbing the post office at Childress, Texas, were arrested here with nearly \$600 worth of postage stamps in their possession. They refused to talk. In a value carried by one of the men was found a bottle of nitroglycerine and a coil of fuse. They will be turned over to officers from Texas.

Don't fail to be present at the opera house Thursday evening, one of the choicest programs of the season will be given.

Rev. C. T. Gore a member of the Dale circuit at Waco, O. T., is in the city shaking hands with his old time friends. He was accompanied here by his daughter, Mrs. James McKevey. Rev. Gore brought with him some very fine specimens of the Ben Davis apple, grown in Oklahoma.

## Heavy Delinquent List.

Street Commissioner, J. O. Smith informed the ARDMOREITE at 2:30 this afternoon that he had collected \$536, on street tax, and that there were now 128 persons who had been duly summoned and failed to respond. These parties were reported to Judge Galt this afternoon, and warrants will issue at once for their arrest.

Judge Galt says that the penalty for failing and refusing to work the streets is not more than \$10 and costs, and that he will certainly impose a fine on each and every one of them unless they have a good and lawful excuse for so failing.

Guy Ledbetter has rented a neat little cottage over in northeast Ardmore and will keep house.

Marriage license was issued today to R. H. Wood and Maud Thornton, both of Berwyn.

The Ewing-Taylor combination at the opera house one week, commencing Monday, Oct. 7.

## George Randol's Close Call.

George Randol, who rooms with Mr. B. E. Mobley in southwest Ardmore, came near being hit by a stray bullet this morning about sun-up.

Mr. Randol had just got up and completed his toilet, and was standing looking through the window that fronted west, when to his surprise a rifle bullet came crashing through the window just above his head.

Just who fired the gun or where the bullet came from he had not the least idea. He did not even hear the report of the gun.

This shooting indiscriminately should be stopped. People's lives are endangered, besides it is in direct violation of the city ordinance.

One of the leading grocers of Ardmore donated all the coffee the ladies of Carter avenue can use at their supper Friday night, Oct. 4th. We will have good coffee in connection with every thing good to eat. Every body come.

"The Best Is the Cheapest."  
Not how cheap, but how good, is the question.

The TWICE-A-WEEK REPUBLIC is not as cheap as some other so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year around, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, \$1 a year. Any news dealer, newspaper or postmaster will receive your subscription, or you may mail it direct to

## IT IS FINISHED.

The great Cloudcroft lodge has been completed, formally opened, and offering an incomparable cruise line, under the management of Mr. J. W. Fisher, proprietor of the famous Hotel Sheldon of El Paso, Tex.

You want an enjoyable summer. You want to get away from the oppressiveness of the city and the low altitudes. Go to Cloudcroft, N. M., 900 feet elevation. On the summit of the loftiest peak of the Sacramento mountains. 119 miles northeast of El Paso. Wonderful scenery. Tennis courts and Golf links, dancing pavilion. In fact everything desired and expected in an up-to-date healthful summer resort.

Cloudcroft is known as the "Breathing Spot of the Southwest." There is but one way to go comfortably and quickly. But one way to avoid more than

ONE CHANGE of cars; but one way to enjoy reclining chair cars, (seats free) and sleeping cars all the way through daily to El Paso. That way is via the Texas & Pacific Railway.

Third Time He Won Prize.  
The ARDMOREITE is pleased to learn that J. S. Mullen, our talented young lawyer and alderman, has just won the gold prize from an eastern magazine, in writing the best essay on the divorce question, as a National issue.

This makes the third prize that Mr. Mullen has won in his literary work in the last six months.

Martin Ritz, father of Mrs. Katie Turner, who has been quite sick for some time, is now improving.

## Tale of a Dormouse.

This tear compelling tale is from the London Globe: "A young lady bought a dormouse. After keeping it for some time she had occasion to send a present to a friend and utilized the dormouse for that purpose. A few months later the friend wrote to say that the pet did not seem very lively and was refusing its food. Would she come and inspect it? She came and inspected it and finally, feeling that this was a case for professional opinion, called in a vet. The vet's verdict was brief and to the point. The dormouse had been dead just six months."

## Advice About Health.

Don't worry about your health. More people make themselves ill by doing that than is generally supposed. If you are constantly imagining that there is something the matter with you, you will do yourself harm. Live as far as you are able a healthy life and for the rest take your chance like a man. There are plenty of people who suffer a living death by allowing themselves to imagine that they are going to have every illness they read about.

## Depressed.

"I am afraid Higgins has met with reverses."  
"What makes you think so?"  
"He goes about with a gloomy look, saying there is no such a thing as disinterested friendship. That is almost a sure sign that a man has been trying to borrow money."—Exchange.

## Sure He Knew Best.

Mamma—Dora, your father says that that young man of yours, Mr. Hartt, is deceiving you.

Dora—But he isn't, mamma, for I asked him, and he said he wasn't. Of course he knows better than papa—Boston Transcript.

## Not Unusual.

May—Have you heard of Clara's hard luck?  
Belle—No. What is it?  
"Now that they are married they have to retrench awfully to make up the money he wasted while courting her."—Life.

## Women and Jewels.

Jewels, candy, flowers, man—that is the order of woman's preferences. Jewels form a magnet of mighty power to the average woman. Even the greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at City Drug Store, Ardmore and Madill.
